Office Action Summary	Application No. 10/607,217	Applicant(s) IMANISHI ET AL.	
	Examiner William C. Joyce	Art Unit 3682	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 4 and 5, drawn to a bolt member, classified in class 476, subclass 8.
 - II. Claims 6 and 7, drawn to a displacement shaft, classified in class 476, subclass 8.
 - III. Claims 8 and 9, drawn to a shaft arrangement, classified in class 476, subclass 8.
 - IV. Claims 3, 12, and 13, drawn to a cover, classified in class 476, subclass 40.
2. Inventions of Groups I-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the oil system for the bolt, the displacement shaft, the drive shaft, and the cover have separate utility such that each group can be used in a transmission without using one of the other groups. See MPEP § 806.05(d).
3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Bolt Arrangement

- a. Figure 4.

- b. Figure 8A.
- c. Figure 8B.
- d. Figure 8D.
- e. Figure 8E.
- f. Figure 11.

Displacement Shaft Arrangement

- a. Figure 5.
- b. Figure 9A.
- c. Figure 9B.
- d. Figure 9C.
- e. Figure 12.

Shaft Arrangement

- a. Figure 6.
- b. Figure 10.
- c. Figure 13.
- d. Figure 15.

4. In the event applicant chooses one of Group I, II, or III in the above restriction requirement, applicant is also required under 35 U.S.C. 121 to elect a single embodiment of the bolt arrangement, the displacement shaft arrangement or the shaft arrangement for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

Art Unit: 3682

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

The inventions are distinct, each from the other because of the following reasons:

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
